PERINATAL DAY CARE HABILITATIVE SERVICES (PDCH-Ongoing)

Perinatal day care habilitative services are non-residential programs that provide recovery services to alcohol and/or other drug using pregnant and parenting women and their children. The primary purpose of these services is to provide a planned program in a social setting structured to maximize recovery and rehabilitation of clients. These programs provide services that are more intensive than a visit, but less extensive than twenty-four (24) hour residential services. Program clients participate at least three (3) hours per day, three (3) times per week and return to their own residences at night. The program services are available for a minimum of six (6) hours per day, six (6) days per week.

RESIDENTIAL HABILITATIVE (PERINATAL) SERVICES (RHP-Ongoing)

Residential habilitative (perinatal) services is a twenty-four (24) hour residential program where specialized recovery services are made available to pregnant and postpartum women who have alcohol and/or drug problems. Program participants are involved in no less than six (6) hours of planned treatment and recovery activities per day under the supervision of trained staff. Specialized recovery services may include therapeutic intervention by professional staff such as Licensed Clinical Social Workers, Marriage and Family Therapists, and Doctors of Philosophy. Services are provided within non-institutional residential facilities where people who use alcohol and/or other drugs are supported in their efforts to restore, maintain and apply interpersonal and independent living skills, and access community support systems. Programs provide a range of activities and services for individuals who are at risk of hospitalization or other institutional placement if they were not in a residential treatment program. This is a structured program with services available twenty-four (24) hours a day, seven (7) days a week. Services are provided in a State licensed facility.
